- Tic-tac-toe – A simple interactive web-based game built using HTML, CSS and JavaScript, featuring responsive 3 x 3 layout and dynamic game logic for two players.

- Calculator – A functional web-based calculator built using HTML, CSS and JavaScript, capable of performing basic arithmetic operations with a user-friendly interface.

- YouTube clone – A web-application replicating the core features of YouTube including search functionality and responsive design.

- Language-class-enrollment-form –I developed a language class enrollment form using React and Node.js, integrated with MySQL. It features validation and secure login/sign-up functionality, ensuring a smooth user experience and data security.

Custom Section
